

Is there a drone in your future?

Intro to Drone Safe Flying Class

Conducted by Airborne Precision Imaging-Arizona a subsidiary of Professor David G. Iadevaia's Student and Teacher Solutions

Learn about:

- FAA Safe flying recommendations
- How a drone (quadcopter) works
- How to safely fly your drone
- Basic skills you need for a safe flight
- Actually take the controls of a drone and make a short flight!

The one hour introductory class is ideal for the person who has or is getting a drone (quadcopter) or if you have an interest in what a drone is.

The drone you will be flying is supplied by us.

Other classes will be available if you would like to learn how to fly your own drone.

Cost for the **Intro to Drone Safe Flying Class** is \$25.00 payable by cash or check when you arrive for the class.

Each class is limited to 10 students. You need to register before the class by calling or texting 520-827-7877 or email apiaz123@yahoo.com with your name and contact info.

Dates and Locations will be announced soon but call now if you are interested.
